"Attending Iowa State University has brought ample growth and opportunity into my life. Receiving this scholarship will allow me to continue participating in events that shape my experience. Most recently, I was able to partake in a Study Abroad program in Italy where I developed skills such as problem-solving, adaptability, and communication and was able to immerse myself in a new culture. Without the extra support from scholarships, opportunities like these would be less advisable. I am incredibly grateful to receive this scholarship and am excited for the rest of my time at Iowa State."
